### **TABLES**

#### **Table no. :1**

Table name: tbl\_login

Primary key: login\_id

Foreign key: email references tbl\_reg

utype references tbl\_usertype

status references tbl\_status

| Field Name | Data Type    | Description                      |
|------------|--------------|----------------------------------|
| login_id   | int          | Primary key                      |
| email      | Int          | Foreign key from tbl_reg         |
| utype      | int          | Foreign key from<br>tbl_usertype |
| password   | varchar(100) | Password for login               |
| status     | int          | Foreign key from tbl_status      |

#### **Table no. :2**

Table name: tbl\_reg

Primary key: login\_id

Foreign key: login\_id references tbl\_login

status references tbl\_status

locid references tbl\_locality

| Field Name | Data Type    | Description                        |
|------------|--------------|------------------------------------|
| email      | varchar(200) | Primary key                        |
| Login_id   | int          | Foreign key from tbl_login         |
| name       | varchar(20)  | Name of the user                   |
| locid      | int          | Foreign key from tbl_locality      |
| phone      | int          | Mobile number of the user          |
| address    | varchar(200) | address of the user                |
| status     | int          | Foreign key from tbl_status        |
| Documents  | varchar(200) | Documents of vendor to be verified |

### Table no. :3

Table name: tbl\_utype

Primary key: utype\_id

Foreign key: status references tbl\_status

| Field Name | Data Type   | Description                 |
|------------|-------------|-----------------------------|
| utype_id   | int         | Primary key                 |
| utype      | varchar(20) | User type                   |
| statusid   | int         | Foreign key from tbl_status |

### Table no. :4

Table name: tbl\_status

Primary key: status\_id

Foreign key: status references tbl\_status

| Field Name | Data Type   | Description |
|------------|-------------|-------------|
| status_id  | int         | Primary key |
| status     | varchar(20) | status      |

**Table no. :5**

Table name: tbl\_outletprof

Primary key: outlet\_id

Foreign key: email references tbl\_reg

serviceid references tbl\_services

locid references tbl\_locality

Service\_id references tbl\_service

| Field Name  | Data Type    | Description                   |
|-------------|--------------|-------------------------------|
| outlet_id   | int          | Primary key                   |
| email       | int          | Foreign key from tbl_reg      |
| Service_id  | int          | Foreign key from tbl_service  |
| Outlet_name | varchar(20)  | Name of the outlet            |
| locid       | int          | Foreign key from tbl_locality |
| photo       | varchar(200) | Photos                        |
| address     | varchar(200) | address of the user           |
| description | varchar(200) | Description about outlet      |
| phone       | int          | Mobile number of the outlet   |
| address     | varchar(200) | address of the outlet         |
| email       | varchar(200) | email of the outlet           |

**Table no. :6**

Table name: tbl\_service

Primary key: service\_id

Foreign key: Subcat\_id references tbl\_subcat

| Field Name | Data Type | Description |
|------------|-----------|-------------|
| service_id | int       | Primary key |

|              |              |                             |
|--------------|--------------|-----------------------------|
| service_name | varchar(200) | Name of service             |
| Subcat_id    | int          | Foreign key from tbl_subcat |

#### Table no. :7

Table name: tbl\_cat

Primary key: cat\_id

| Field Name | Data Type   | Description   |
|------------|-------------|---------------|
| Cat_id     | int         | Primary key   |
| catname    | varchar(50) | Category name |

#### Table no. :8

Table name: tbl\_subcat

Primary key: subcat\_id

Foreign key: cat\_id references tbl\_cat

| Field Name | Data Type   | Description              |
|------------|-------------|--------------------------|
| Subcat_id  | int         | Primary key              |
| Cat_id     | int         | Foreign key from tbl_cat |
| subname    | Varchar(50) | Sub category name        |

#### Table no. :9

Table name: tbl\_district

Primary key: dist\_id

| Field Name | Data Type   | Description   |
|------------|-------------|---------------|
| dist_id    | int         | Primary key   |
| district   | Varchar(50) | District name |

**Table no. :10**

Table name: tbl\_city

Primary key: city\_id

Foreign key: dist\_id references tbl\_district

| Field Name | Data Type   | Description                      |
|------------|-------------|----------------------------------|
| city_id    | int         | Primary key                      |
| dist_id    | int         | Foreign key from<br>tbl_district |
| City_name  | Varchar(50) | Name of city                     |

**Table no. :11**

Table name: tbl\_locality

Primary key: loc\_id

Foreign key: city\_id references tbl\_city

| Field Name | Data Type   | Description                  |
|------------|-------------|------------------------------|
| loc_id     | int         | Primary key                  |
| city_id    | int         | Foreign key from<br>tbl_city |
| loc_name   | Varchar(50) | Name of locality             |

**Table no. :12**

Table name: tbl\_review

Primary key: rev\_id

Foreign key: login\_id references tbl\_login

outlet\_id references outletprof

| Field Name | Data Type    | Description                 |
|------------|--------------|-----------------------------|
| revid      | int          | Primary key                 |
| login_id   | int          | Foreign key from tbl_login  |
| outlet_id  | Varchar(50)  | Foreign key from outletprof |
| review     | Varchar(500) | review                      |

**Table no. :13**

Table name: tbl\_refer

Primary key: ref\_id

Foreign key: email references tbl\_reg

loc\_id references tbl\_locality

subcat\_id references tbl\_subcat

| Field Name | Data Type   | Description                   |
|------------|-------------|-------------------------------|
| Ref_id     | int         | Primary key                   |
| email      | Varchar(50) | Foreign key from tbl_reg      |
| outletname | Varchar(50) | Name of the outlet            |
| loc_id     | int         | Foreign key from tbl_locality |
| subcat_id  | int         | Foreign key from tbl_subcat   |
| Contactno. | int         | Contact no. of outlet         |

**Table no. :14**

Table name: tbl\_message

Primary key: msg\_id

Foreign key: email references tbl\_reg

status references tbl\_status

| Field Name | Data Type    | Description                 |
|------------|--------------|-----------------------------|
| msg_id     | int          | Primary key                 |
| email      | Varchar(50)  | Foreign key from tbl_reg    |
| message    | Varchar(500) | Content of message          |
| status     | int          | Foreign key from tbl_status |
| timestamp  | datetime     | Time of message             |

**Table no. :15**

Table name: tbl\_ads

Primary key: ad\_id

Foreign key: email references tbl\_reg

outlet\_id references tbl\_outletprof

status references tbl\_status

paln\_id references tbl\_plan

| Field Name | Data Type    | Description                     |
|------------|--------------|---------------------------------|
| msg_id     | int          | Primary key                     |
| email      | Varchar(50)  | Foreign key from tbl_reg        |
| outlet_id  | Int          | Foreign key from tbl_outletprof |
| Photo      | Varchar(200) | Photo for ad                    |

|             |              |                             |
|-------------|--------------|-----------------------------|
| Description | Varchar(200) | Description for ad          |
| status      | int          | Foreign key from tbl_status |
| Plan_id     | int          | Foreign key from tbl_plan   |

**Table no. :16**

Table name: tbl\_plan

Primary key: plan\_id

| Field Name | Data Type   | Description       |
|------------|-------------|-------------------|
| plan_id    | int         | Primary key       |
| duration   | int         | Duration of ad    |
| Amount     | Varchar(50) | Amount for the ad |

**Table no. :17**

Table name: tbl\_Payment

Primary key: pay\_id

Foreign key: login\_id references tbl\_login

outlet\_id references tbl\_outletprof

status references tbl\_status

paln\_id references tbl\_plan

| Field Name | Data Type | Description                   |
|------------|-----------|-------------------------------|
| msg_id     | int       | Primary key                   |
| Login_id   | int       | Foreign key from tbl_login    |
| Refno.     | Int       | Reference no. for transaction |
| status     | int       | Foreign key from tbl_status   |

|           |          |                           |
|-----------|----------|---------------------------|
| Plan_id   | int      | Foreign key from tbl_plan |
| timestamp | datetime | Time of message           |
